PREFACE

The Standard Bidding Document (SBD) has been prepared by the Public Procurement and Disposal of Public Assets Authority for use by Procuring and Disposing Entities in the disposal of Public Assets. For the purpose of this document, disposal means the divestiture of public assets, including intellectual and proprietary rights and good will, and any other rights of a Procuring and Disposing Entity by any means, including sale, rental lease, franchise, auction. The procedures and practices presented in this SBD have been developed to reflect the requirements of the Public Procurement and Disposal of Public Assets Act No. 1/2003 and Public Procurement and Disposal of Public Assets Regulations, Statutory Instrument No.70/2003 and the best international procurement practices.

The Standard Bidding Document has been developed for use under the Public Bidding and Sale to Public Officers disposal methods. It may also be used for disposal under the Direct Negotiations method with appropriate modifications to the document. Care should be taken to ensure that the legal requirements for each method are captured while customizing the SBD. The SBD is designed for reasonably straightforward disposal process. Particular complex or high value disposal may require the use of an alternative document.

The Standard Bidding Document contains two types of documents, those that must be used unchanged, and those that should be customized especially for each disposal. An electronic version of this SBD is available from the Public Procurement and Disposal of Public Assets offices Located on Plot 1 Pilkington Road 14th floor Workers House or the Authority's Website www.ppda.go.ug. Explanatory notes on the use of this SBD are contained in user guide for use of the standard bidding document for disposal by public bidding and sale to public officers.

The Public Procurement and Disposal of Public Assets Authority welcomes any comments on these documents by users, which will assist in improving the documents, or correcting any errors.

In pursuit of this policy, the Procuring and Disposing Entity may terminate a contract for disposal if it at any time determines that corrupt or fraudulent practices were engaged in by representatives of the Procuring and Disposing Entity or of a Buyer, during the disposal process or the execution of that contract, without the Procuring and Disposing Entity having taken timely and appropriate action satisfactory to the Government of Uganda to remedy the situation.
